

VA NATIONAL ONCOLOGY PROGRAM is Hiring

BE A PART OF THE FUTURE OF ONCOLOGY CARE. JOIN US!

Since 1932, VA has been a national leader in cancer care and research. At VA, approximately 50,000 Veterans are diagnosed with cancer each year. Through the National Oncology Program (NOP), Veterans receive best-in-class cancer care through precision oncology and cutting-edge clinical research.

Why Work at VA?

- Discover opportunities for dual appointments with VA and university-affiliated institutions.
- Become a part of the largest integrated provider of oncology care in the nation.
- Develop diverse leadership skills, knowledge, and capabilities among the nation's top clinician-scientists involved in oncology care and research.
- Lead important clinical studies to achieve meaningful outcomes for Veterans diagnosed with cancer. Study findings also contribute to improved care for everyone living with cancer.
- Save the lives of those who served. Stand shoulder to shoulder with Veterans through every step of their cancer care.

“

I really enjoy the interaction with patients and the positive feedback I receive. It's gratifying to see the positive impact our oncology care has on the lives of our Veterans and their families.

Dr. Thomas Rodgers
Oncologist, Durham
VA Health Care System

Why Choose VA?

- Competitive salary and regular salary increases
- Work-life balance and generous time off
- Lighter patient load, allowing more time with patients for true patient-centered care
- Expanded opportunities to advance your interests in clinical research

To see how you can join NOP in standing shoulder to shoulder with Veterans on every step of their cancer journey, email cancer@va.gov to learn about current opportunities.
